Method of Data Handling

Regarding the data handling itself:

- the data are processed in both paper and electronic form using electronic devices, by data-handling staff;
- provision of these data is obligatory wherever required by law or for contractual purposes, as well as to comply with fiscal regulations; any refusal to provide them and allow them to be handled could even prevent the Company from establish a contractual relationship with you;
- subject to the communication and dissemination of data to comply with laws, regulations and EC standards, the data may be communicated only to parties who carry out tasks restricted or vital to our activity, in particular:
 - our network of agents
 - factoring companies
 - carriers, shipping agents, correspondents
 - our subsidiaries or affiliated or associated companies
 - credit institutions, debt recovery agencies, credit insurance companies, commercial information companies
 - professionals and consultants specifically appointed and within the limits of their professional duties;
- any other communications in Italy or abroad will be carried out only where there is prior consent;
- the data will be handled for the full duration of the contractual relationship set up and successively for the fulfilment of all legal requirements.

Personal Data and Rights Any party whose personal data are held in contexts referred to here may at any time exercise their rights, as set out in D. L. 196/2003, Art. 7.
